I support and will act in accordance with the VRWA Vision & Mission **YES**

VISION: The Vermilion River Basin is a healthy and sustainable watershed.

MISSION:

1. To educate and increase the public's understanding of watershed protection and its importance by developing and providing programs on the protection and improvement of water quality, water quantity and the health of the Vermilion River watershed.

2. To conduct research relating to the protection of the Vermilion River watershed and to disseminate the results of such research
