

# Eco-Buffer Planting Workshop

Eco-Buffers are diverse, high-density shelterbelts that look and act like natural forest! Join the Agroforestry and Woodlot Extension Society and the County of Vermilion River for a hands-on Eco-Buffer design and planting workshop.

**WHEN:** Wednesday, June 5<sup>th</sup> 5:00pm – 8:30pm  
(doors open at 4:30pm)

**WHERE:** Renewable Energy Learning Centre, Lakeland College

*We'll start with a presentation on the benefits of Eco-Buffers and how to design one, then travel to a nearby site and plant and mulch an Eco-Buffer!*

**COST:  
FREE**

**Light dinner provided.** Participants should dress for the outdoors and bring their own work gloves and spade/shovel.

This is a great workshop for agricultural producers and rural property owners looking to increase forest cover on their land.

**Space is limited!** To register, contact Chris Elder at [CElder@county24.com](mailto:CElder@county24.com) or 780-853-7844.

**Registration deadline: Monday, June 3<sup>rd</sup>.**
